Interview Summary:

On September 12, 2007, Patent Agent Robert Wu spoke to Examiner Philip H. Nguyen and Supervisory Examiner Wei Zhen. The Agent presented arguments directed to independent claim 1. In particular, the differences between the present invention and the Desoli reference were discussed in detail. The meaning of native execution and emulation was clarified with regards to Desoli and the teaching of a DELI layer was discussed. Further study with respect to the DELI layer was indicated as necessary by the Examiner.
